

4/5 Multiage Superstars!

LIGHTS CAMERA ACTION

Feltwell Elementary School, England

Where everyone's a star!

MATH

ENVISION: Congruence & Symmetry

DIVISION SMART RESPONSE MATH: We will use the Smart Response System to take quizzes to check our quickness in recalling division facts. Quick recall builds a solid foundation for math the future!

ECONOMICS/ MARKET DAY

PREPARING FOR OUR 2nd ANNUAL MARKET DAY: Tentatively set for June 1st

Our class, along with Mr. Koziar and Mrs. Eversman's classes, will participate in an economics unit where students will learn the ins and outs of business and how to run a successful business. We will conclude our unit by allowing the students to choose an item to sell at Market Day, a day when our students will sell their items to other students, staff, and parents who get to do some shopping. It was such a huge success last year that we had to do it again this year. Last year we donated the money we earned to Coins for Change; however, this year, all three classes will come together to decide how and on what the money will be spent. More information will be coming soon!

READING

MR. TUCKER- We will continue to read Mr. Tucker and participate in comprehension checks along the way.

PRESENTATIONS OF OUR "DID YOU KNOW BOOKS"

**Please let me know if you can send in cookies for either Authors' Teas. Thank you! :)*

"DID YOU KNOW?" AUTHORS' TEAS on Wednesday & Thursday

Parents, please plan to attend your children's authors' tea time to listen to your children read their exciting informational books with the most exciting facts they could find about many interesting topics.

SOCIAL STUDIES/ WRITING/ DRAMA

OREGON TRAIL SIMULATION- Students will continue their "journey" through the trail encountering various "events" along the way. Every day they journal their experiences. We will include these writings in a classroom play sharing our "experiences" on the Oregon Trail. Our play and a taste of the trail is tentatively scheduled for May 18th.
