

What is the Superstar Quest Club?

The Superstar Quest Club is for students who are interested in going "above and beyond" the learning we do in our classroom. Students who are interested may choose from the topics below to expand their knowledge. Each participant will be responsible for his or her own research for this project. Activity research can be done both at school and home.

Who can become a member?

Everyone! Participation is your choice.

How do I become a member of the Superstar Quest Club?

To become a member, choose a question from the lists below that interests you. Do some research to learn the answer then share your new found knowledge with Mrs. Griffis and your classmates during our morning community meeting.

Your answer should be hand-written & include the Quest Club # and question.

You can become a 1-Star Member by answering one question correctly, or keep going to really build those brain wrinkles and work your way all the way up to an 102-Star Member.

What is the Superstar Quest Club Hall of Fame?

The Hall of Fame is for anyone who really wants to put more into their learning. In order to become a member of the Superstar Quest Club Hall of Fame you must answer 15 questions correctly.

Once you enter the Hall of Fame, your name will remain in place for as long as I am teaching.
